

GX-5i³

NEW» G O L F R A N G E F I N D E R

ONE SIZE DOES NOT FIT ALL.

The GX-5i³ with Leupold's high performance DNA® (Digitally eNhanced Accuracy™) engine and advanced infrared laser provides faster measurements and increased accuracy displayed to the nearest 1/10 of a yard. Featuring TGR and Club Selector, which can be disabled for tournament play, the GX-5i³ provides ranging information and club recommendations based on personal hitting strength, slope, and current environmental conditions. PinHunter 3 technology increases the pulse rate of the rangefinder which ignores user movement to identify the pin, while the audible Prism Lock lets you know you're locked on target.
