LEUPOLD LTO-TRACKER

Odds are, if you have been hunting long enough, you've encountered a difficult animal recovery. When the blood trail runs dry or gets washed away, the LTO-Tracker is there to help. Using thermal imaging technology to search for the heat signature emitted from the body or blood of an animal, the LTO-Tracker greatly improves the odds of a successful recovery.

Since the LTO-Tracker is a thermal device and not night vision it works both day and night. With a 21 degree field-of-view and Continuous Zoom up to 6X magnification, the LTO-Tracker can detect a heat signature up to 600 yards away. The 6 color palettes and user optional reticle can be selected for quick target acquisition in any environment.

Consult local regulations for restrictions of use before heading into the field. Not intended for mounting on a firearm

SPECIFICATIONS

Thermal Sensor.....	206 x 156
Detection Distance.....	600 Yards
Field of View	21 Degree Horizontal FOV
Thermal Detection Range	-40F to 572F
Operating Temperature	-4F to 140F
Frame Rate	30 Hz FastFrame
Focus.....	Fixed Focus
Zoom.....	6X Digital Zoom
Display	Direct View 1.22" Round
Display Resolution.....	240 x 204
Color Palettes.....	6 Optional Color Palettes
Startup Time	< 3 Seconds
CR123 Battery Life.....	10 Hours Continuous Use
Automatic shut off after 15 minutes of inactivity	
Warranty.....	5-Year Electronics Warranty
Designed, Machined, and Assembled in the U.S.A.	

About Leupold & Stevens, Inc.

Today, Leupold optics are renowned for their unchallenged ruggedness, absolute waterproof integrity, and their vastly superior optical quality. More than a century of optical, engineering and manufacturing experience goes into every product we produce, and we think the results are well worth the extra effort required to achieve this level of quality.

In true American style, the philosophical foundation laid in our early years served as a template for the company as we've grown and changed over the decades. In fact, the firm's founder established the clarity of purpose that we see at Leupold & Stevens today:

"We solemnly promise never to let down on quality, the customer is entitled to a square deal."

- Markus Friedrich "Fred" Leupold
